

Scout is busy working on UMCs' Cao

Date 11-6-2021

By engaging an independent scout with extensive experience in negotiating cao's, the NFU and the unions are continuing their exploration of what possibilities there are to conclude a cao that is acceptable to all parties.

We promised to keep you regularly updated about the cao. But to give the scout the room to do his job, and to avoid influencing the process in any way, we shall not be providing any interim updates about its progress. As soon as we and the unions and in consultation with the scout feel that there is information that could be shared, we shall of course do so as quickly as possible.
