

Cao agreements are formulated in accessible cao text

Datum 27-1-2022

The new year started off with the new Cao umc 2022-2023. In January 2022 the adjusted salaries were paid out. And the permanent increase in salary from 1 August 2021 was paid out in January 2022 with retroactive effect.

The NFU presented the draft cao text to the unions at the end of 2021. In January and February 2022, the unions and the umcs will agree how exactly to formulate the agreements in the text of the new cao. The emphasis will be on legibility. The definitive cao text is expected to be available from March 2022.

A number of agreements in the cao, for example the generational policy, will be elaborated later this year.
